

COMMISSION REGULATION (EURATOM) No 770/90

of 29 March 1990

laying down maximum permitted levels of radioactive contamination of feedingstuffs following a nuclear accident or any other case of radiological emergency

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Having regard to the Treaty establishing the European Economic Community,

Done at Brussels, 29 March 1990.

Having regard to Council Regulation (Euratom) No 3954/87 of 22nd December 1987 laying down maximum permitted levels of radioactive contamination of foodstuffs and of feedingstuffs following a nuclear accident or any other case of radiological emergency¹, as amended by Regulation (Euratom) No 2218/89², and in particular Article 7 thereof,

For the Commission

Carlo RIPA DI MEANA

Member of the Commission

Whereas, in accordance with Regulation (Euratom) No 3954/87, the Commission shall adopt maximum levels of radioactive contamination to be applied to feedingstuffs;

Whereas the group of experts appointed by the Scientific and Technical Committee pursuant to Article 31 of the Euratom Treaty, has been consulted;

Whereas consideration of the relative quantities of individual radionuclides liable to be released in the event of a nuclear accident in conjunction with their half-lives and transfer from feedingstuffs to animal produce leads to the conclusion that maximum permitted levels of radioactive contamination of feedingstuffs are needed only for the caesium isotopes;

Whereas the measures provided for in this Regulation are in accordance with the opinion of the *ad hoc* Committee instituted by Regulation (Euratom) No 3954/87,

HAS ADOPTED THIS REGULATION:

Article 1

Maximum permitted levels of radioactive contamination of feedingstuffs are set out in the Annex.

Article 2

This Regulation shall enter into force on the third day following its publication in the *Official Journal of the European Communities*.

¹ OJ No L 371, 30. 12. 1987, p. 11.

² OJ No L 211, 22. 7. 1989, p. 1.

ANNEX

Maximum permitted levels of radioactive contamination (caesium-134 and caesium-137) of feedingstuffs

Animal	Bq/kg ⁽¹⁾ ⁽²⁾
Pigs	1.250
Poultry, lambs, calves	2.500
Other	5.000

⁽¹⁾ These levels are intended to contribute to the observance of the maximum permitted levels for foodstuffs; they do not alone guarantee such observance in all circumstances and do not lessen the requirement for monitoring contamination levels in animal products destined for human consumption.

⁽²⁾ These levels apply to feedingstuffs as ready for consumption.
